MUNICIPAL OFFICES

Encl

Bangalore 19th January 1943

FROM

ABDUL AZIZ KHAN ESQ B A
MUNICIPAL COMMISSIONER

Bangalore City

Arayanaswamy Naidu, Esq, B A, B L,

SECRETARY TO THE GOVERNMENT

OF HIS HIGHNESS THE MAHARAJA OF MYSORE,

LAW DEPARTMENT, BANGALORE

SIR,

Subject - Calling for a report of action taken
in the matter of improving the land between
Arlepet Road and Kemmannugindu Road

With reference to your letter L 5899 dated 11-12-1942,
on the above subject, I have the honour to state, a plan of
the Arlepet Road area to which the timber yards now situated
between the Arlepet Road and Kemmannugundi Road is reported
to have been sent to the Government Architect by the Municipal
Engineer in his letter No E3-156 dated 7-10-1942 for sending
a layout. The same has not yet been received and further
action will have to be taken only after receipt of the layout
plan.

The Government Architect is being reminded today

I have the honour to be,
Sir,
Your most obedient servant,

1)

Submitted for perusal

2) Receipt of further report
will be awaited. Please see para 11

Scheme to improve the area lying between Arelepet on the East of Kummangundy Road cross to the south Kummangundy Main Road on the west and Belimutt Road on the north

1299

OFFICE OF THE MINISTER FOR L S G & P W	
Date	8-9-41
No	430

=0=

2nd
This large area of nearly 62000 square yards lying very near the centre of the city has long been neglected without any development

+ towards making it an habitable area There are certain obvious rea-

123 sons for not making use of this plot for building purposes at the

2 9 4 first instance, on account of the comparatively better facilities the

extensions on high grounds around the city held forth for the eager

town planner The reasons may be briefly stated as follows -

- 11/17
- 1 Low lying ground towards the west of the plot
 - 2 The vicinity of the Binny Mills and the Agrahara Tank
 - 3 The need of the timber merchants to have an open area nearer to the heart of the city and the good income realised thereon by the Municipality
 - 4 The existence of burial ground in the centre

Nevertheless the above reasons cannot be cited as making the area permanently unsuitable for being developed as habitable, at least on the out-skirts where there are already cropping up small buildings and huts The development of the city in all aspects particularly from the point of view of sanitation requires that such areas inside the city be developed even at some cost to the Municipality There are advantage that the plot is situated nearer to leading mills of the city and busy centres like new Tharagupet which may well be made use of in developing the area as a fitting block, good in sanitation and convenient to business men and labour class Part of the area has already accommodated a good number of poor labour huts and Municipality is doing its best to provide these people with modern huts in the area

The private lands on the Arelepet side near Super Talkies may be acquired and building sites 60' x 180 may be laid out and there is hardly any doubt that these sites would have a good demand from the public The area facing Belimutt Road is next in importance and if the private land is acquired and sites measuring 40' x 100', 30' x 50' are laid out they would fetch a good income to the Municipality and the area will have been improved A row of sites may be put in at the

the South facing Kemmangundy Road cross and business concerns if not private buildings are sure to thrive in the area And of sites on the west facing Kemmangundy Main Road may not be very prospective on account of the ~~low~~ low lying ground but with some improvements the business concerns may find the sites suitable as they would face an important road The central area wherein the burial ground is situated cannot be used for any other purpose and as such should be fenced around The temporary huts put up by the sweepers may be demolished and the area may be laid out as a park and playground to the convenience of the people round about the area Some more units of sweepers' huts may have to be put in and a narrow stretch of ground may be reserved for the purpose in line with the existing ones The Timber yards may be shifted totally from the area and accommodated elsewhere on the outskirts of the city preferably on Magady Road near the Ookad where agricultural lands may have to be acquired for the purpose, since the question of drainage of the area has received good attention at the hands of the Municipality in the previous years it may not be necessary to incur extra expenses over the formation of drains and hereafter Sites may be laid out at little initial cost, apart from the cost of acquisition and dismantling buildings etc

The cost of acquisition may be roughly stated as follows -

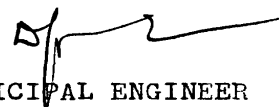

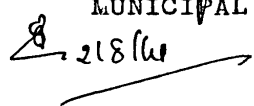

Land value	$\frac{140' + 120'}{2} \times 280' = 84000$ $44' \times 65' = 2860$	18200	
			105060 square feet
or 11651 square yards @ Rs 6/- per square yard		Rs	69,906/-
Building value			
Terraced pucca buildings	$26' \times 65' = 1690$ $65' \times 48' = 3120$		4810
			4810 square feet @ Re 1/- per square feet
		Rs	4,810/-
Ordinary buildings with Mangalore tiles and zinc sheet	$120' \times 10' = 1200$ $90' \times 45' = 1350$		2550
			2550 square feet @ Rs 0-8-0 per square feet
		Rs	1,275/-
		Rs	75,991
		or Rs	76,000

The amount that may be realised by the sale of the sites

Sites facing Arelepet Road 5 of 60' x 180' each = 300' x 180' = ~~54,000 square feet~~	54,000 square feet
Sites facing Belimutt Road ~~1600~~ 4 of 40' x 100' each = 160' x 100' =	16,000 "
Do 2 of 30' x 100' = 60' x 50' =	3,000 "
Sites facing Kemmangundy Road cross 12 of 40' x 120' each = 500' x 120' =	60,000 "
	<u>1,33,000</u> "
or 14,777 square yards @ Rs 8/- per square yard =	Rs 1,18,116/-
Sites facing Kemmangundy Main Road 330' x 100' =	33,000
square feet or 3,666 square yards @ Rs 2/- per square yard	= Rs 7,332/-
	<u>Rs 1,25,448</u>
	or Rs <u>1,26,000</u>
Savings to the Municipality is	Rs 50,000/- .
The income to Municipality from the least of Timber yards annually	= Rs 2,750
The probable income in the shape of revenue taxes after the area is laid out (roughly)	= Rs 1,500
Interest at 3 $\frac{1}{2}$ % on the realisation of Rs 50,000/- by sale of sites	Rs Rs 1,750
Net gain per annum	= Rs 500

If the above scheme with good in prospects is ~~kind~~ kindly approved, necessary estimate with a layout plan will be submitted in due time

Subject - Improvements to the land between the
Arlepet and Kemmangundi Road

With reference to your letter No L 2365 dated 28-8-1942 on the above subject, I have the honour to state that the City Improvement Committee have approved the proposals of the Government Architect in the matter at their meeting held on 29-5-1942 and the Municipal Council have also approved the resolution of the City Improvement Committee

The Municipal Engineer has been requested to submit detail proposals and estimates for giving effect to the suggestions of the Government Architect. The question will be considered on the receipt of his further proposals.

Copies of the proposals of the Government Architect, the resolutions of the City Improvement Committee and the Council are herein enclosed for reference.

I have the honour to be,
Sir,
Your most obedient servant,

Municipal Commissioner

8

Letter No 10908 dated 5-1-42 from the Government Architect Central Office, P W D , Bangalore to the Municipal - Commissioner, City Municipality, Bangalore

Improving the land between Aralepet road and Kemmangundi Road

With reference to your letter No C2 343 dated 3rd Nov , 1941, I have the honour to enclose herewith two plans showing my proposals for the improvement of the above area with the following observations -

1 After inspecting the site and discussing the matter with the Special Officer, Bangalore City Drainage Scheme, it was found that the land between Aralepet road and Kemmangundi road is not suited to be partitioned into building sites because there is no possibility of draining this area If the land would be covered with houses, all sewage would have to go into the Binny Mill tank

The idea of a lay-out of building sites must therefore be abandoned in the interest of public health

2 The key plan (Flag T)^{which}/is enclosed with this letter shows that the above land lies between a large congested housing-area of the inner city and areas which will be filled with houses in the near future Therefore, it lies in the interest of the Municipality that the land between the Cottonpet and Kemmangundi roads should be kept open as a green spot and "Lung-space" for this part of the City.

3 The existing timber yards give a good revenue of Rs 2,750/ per annum and thus allow the area to be kept open without great losses to the Municipality

4 The Aralepet road forms one of the most important connections and thoroughfares of the Western City and should be widened and improved

With a view to the above observations, the enclosed plan (flag "U") has been prepared proposing the following improvement

(a) the land proposed for acquisition by the Municipal engineer (marked) in the plan may be acquired

(b) All existing thatched sheds and kutcha lines may be dismantled and the owners settled in the proposed Magaali road extension

(c) Three of the existing timber yards may be shifted to the south side of the area along Kemmangundi road.

(d) The vacated Municipal Land may be cleared and formed into parks or leased out as sports-fields.

(e) The two existing colonies of small quarters may be provided with septic tanks in order to prevent their sewage from getting into the tank uncleaned

(f) Small shop sites may be formed along the west side of Aralepet road, similar to the sites along silver Jubilee road. The construction of shops according to a Uniform type design may be licensed subject to the conditions that flush latrines are built within the main building and joint on to the underground drainage existing in Arlepet road. The amount for the drainage connection may be deposited with the Municipality before the building license is issued.

(g) The new shops may be built in line with the Cinema thus widening the road

(h) The Mohamedan Community may be permitted to sell sites for shops under similar conditions provided that a strip of land for widening the road is given to the Municipality free of cost (the tombs do not come up right to the road so that it may be possible to give up a small part - without spoiling the Cemetery)

c The amount realised through selling the shop-sites will cover the greater part of the expenses of the scheme. The revenue from the timber yards will be unaltered

The papers and plan sent with your above reference are returned herewith

P. Suryanarayana Setti, Esq., B.A., LL.B.,
XXXXXXXXXXXXXXXXXXXX

The Government Architect,
Bangalore.

Subject.- Calling a report of action in the matter of improving the land between Aralepet Road and Kemmangundi Road.
With reference to your letter No. 1073 dated 29-1-1943 on the above subject. I have the honour to state that the design and detailed report referred to in your letter relate to the improvements of the above area and they are in the records of this office. But what the Municipal Engineer reported was that he has addressed a letter to you vide his office No. 33-156 dated 7-10-1942 requesting for a layout of the Magadi Road area where the timber yards have to be shifted. A copy of his report is enclosed for ~~your reference.~~ Unless the area in Magadi Road is acquired, the proposals sanctioned by the Council to improve the area between Aralepet Road and Kemmangundi Road cannot be given effect to. I therefore request you to send a layout for the Magadi Road area early for taking further action.

I have the honour to be,
Sir,
Your most obedient servant,

d- P Suryanarayana Setti
Municipal Commissioner.

SIR

Subject Improvement to Timber Yard area between
Aralepet and Mannugundi roads

In continuation of this office letter of even No dated 26-8-1943, I have the honour to state that the subject was considered by the City Improvement Committee on 25-8-1943, when they resolved that the land between deviation road and Nagadi road may be acquired for locating the timber yard and that the private lands in the existing timber yard should be acquired by the municipality for laying out sites. In this connection, they have also observed that the Special Officer, City Drainage Division, Bangalore be enquired if the levels in the existing timber yard would permit the layout of building sites. These resolutions of the City Improvement Committee were approved by the Municipal Council on 28-8-1943.

Necessary further action to acquire the lands is being taken and a report to Government in this behalf will be submitted separately. Further, the Special Officer, Drainage Division has also been addressed to furnish his opinion as to whether the levels in timber yard area permit the layout of the building sites as desired by the Municipal Council.

I am enclosing herewith a copies of the resolutions of the City Improvement Committee and the Municipal Council, for favour of information of the Government

I have the honour to be,
Sir,
Your most obedient servant,

forwarded with compliments
